

Paul & Julie Kraus Intercultural Ministries

Report on the 2015 Northeast Japanese Conference

This powerful intercultural conference took place at the Westchester Christian Worship Center in White Plains, NY on Saturday, February 28, 2015. The Japanese AG, NY Intercultural Ministries, and Westchester Christian Worship Center joined together to host the event.

The conference highlighted the power of God's love for our salvation (Russ Hodgins), supernatural help in accomplishing God's task (Yoriko Yabuki), and positive Christian living in a foreign culture (Paul Kraus).

Of the 35 people attending, two Japanese people were dynamically saved. Haniff Bacchus, John Cummings, and Scott Temple were among the many ethnic ministers present to show support for the vision of reaching the Japanese people (now over 50,000 in Metro NY). A generous offering was received. Hiromi Jefferson reminded us that while China and South Korea have experienced strong Christian movements, Japan still awaits a move of God.

Paul and Julie Kraus with Yoriko Yabuki, missionary from Japan Assemblies of God - Please continue to pray for the ongoing efforts to establish a national Japanese ethnic/language fellowship group and provide an adequate expression of the gospel and church home for over 900 Japanese households in Westchester County. Percentage-wise, Japanese people come to Christ outside of Japan far more than they do in their homeland.

Blessings, *Paul and Julie Kraus*
